WAKE FOREST IS WINNER BY BIGGEST TOTAL OF DAY

Florence Y. M. C. A. Defented by Over-whelming Score—Visitors at No Time Threntened.

whelming Score—Visitors at No Time Threatened.

WAKE FOREST, N. C. September 15.

Wake Forest trampled over the Florence Y. M. C. A. eleven today with a score of 80 to 0, in the opening game of the season for both teams. The liantists made twelve touchdowns and billings kicked eight goals. Wake Forest registered its first touchdown after three minutes of play, and from then on scored almost at will. The shortsts used straight football tactics and did not resort to the open game save on two occasions, when the forward pass was worked for good gains. Straight line bucks, mixed with sweeping end runs, enabled the Baptists to march down the field time after time. The visitors were powerless before the Baptists attack, and they were equally as helpless on the offensive. Only once during the entire game were they able to make first down, a pretty forward pass, Bass to Cooper, netting them the required distance. Their attempts to penetrate the Baptists' line were in vain, and they were forced to resort to a punting game whenever they had the ball. Their several fumbles, too, proved costly. At no stage of the game did they threaten the Baptists' goal line. The line-up:

ELCOCK UNEARTHS TACKLE WHO MAY BEAT RED MILES

American Timber-Washington and Lee Squad Grows.

LEXINGTON, VA., September 25.—
Coach Walter B, Elcock, of Washington and Lee University, who himself was an All-American tackle at Dartmouth in 1911, thinks that he has uncarthed a tackle who will prove himself the superior of Buck Miles, the famous red-thatched tackle who for four years was an All-Southern tackle at Washington and Lee. This promising recruit is Bob Ignico, of Boston, who for the past two years has been an All-Interscholastic tackle in that city. It was he of whom Head Coach Frank Cavanaugh, of Dartmouth, a man with a wonderful ability to size up a football player, stated after seeing Ignico perform with the Boston English High School, that he could hold his own with any tackle in the country. The actual weight of this new wonder is 196 pounds.

Football fans of the South are pretty will

The actual weight of this new wonder is 196 pounds.

Football fans of the South are pretty well acquainted with the ability of Shultz and Pierotti. When Coach Elcock states that he has uncovered another lineman who is fully the equal of these two men, it is a tip to opposing coaches not to take too many liberties with the line of this year's Blue and White team.

Yank Dingwall, varsity guard of the past two seasons, reported yesterday, looking more powerful than he ever did before. He is weighing 191. Bryant. Graham and Moore are fighting it out for the other guard position. Coach Elcock has stated that Moore, a brother of the V. P. I. tackle, is the most heavily muscled man around the shoulders that he has ever seen. Turner

HAMPDEN-SIDNEY DEFEATED IN FIRST GAME OF SEASON

Virginia Military Institute Is Victor by Decisive Score—Losers Put Up Game Struggle.

[Special to The Times-Dispatch.] LEXINGTON, Va., September 25 .- In the initial game of the season the Vir-ginia Military Institute defeated Hampden-Sidney here to-day by a score of 25 to 0. It was by no means runaway game, the visitors putting up a plucky fight from start to finish. The largest score was made in the second quarter, during which the Cadets piled up 19 points. In the second quarter Hampden-Sidney came back somewhat stronger, holding the Cadets to one more touchdown and a goal, and the third neither side scored. In the fourth, on a cleverly-executed forward pass, the visitors succeeded in crossing the Cadets' goal line.

the indoor champion, was second. I. Meyers, of the Illinois Athletic Club, and Louis H. Gordon, of the New York Athletic Club, finished in third and and Louis H. Gordon, of the New York Athletic Club, finished in third and fourth positions, respectively.

They were the only contestants in this race. Ray darted away from the start at the crack of the gun, just as though he was in a sprint race, but after going a lap, he settled down and then permitted Willie Gordon to set the pace. Louis Gordon was third, five yards behind Ray, and Meyer was last, close on the heels of L. Gordon, so they ran until the last afth of a mile; then Ray uncorked z sprint that brought him to the front, but he could not shake off Willie Gordon, who clung to him like a leech.

Jack Eller, of the Irish-American Athletic Club, the all-round champion limber-topper, equalled the world's record, 14 2-5 seconds, made by himself for the 120-yard low hurdles.

The three-mile run handicap proved

self for the 120-yard low hurdles.

The three-mile run handicap proved to be the most exciting race of the day. Nearly all the distance runners of the East participated. The lead alternated numerous times. Entering the last three-fifths of a mile, Hugh Honahan, of the New York Athletic Club, was in front with Charles Pons, of the Millrose Athletic Club, the Marathon king, on his heels, and Villiar Kyronen a close third. On the bell lap the latter let out a series of sprints, but could not shake off Pons. About a furlong from the end, Pons let loose an unexpected sprint that made the others look as though they were standing still, and he did not stop until ne crossed the line, winning forty yards ahead of Honahan. Kyronen was a poor third.

He said, in part:

sults of S. S. S. in overcoming catarrh. To the mind not versed in the other organs of the body. wonders of the human body it will be interesting to understand way, and the interesting tof and air passages of catarrh.

Your nose, as are all the important cavities of the body, is lined with mucous membrane. So is your throat and even your skin covering is a modified form of mucous tissue. Now, all toxins or blood impurities are eliminated by way of this membrane. Stomach distress, intestinal bloating, liver engorgement, kidney weakness, sore lungs and bronchial tubes that produce cough; an irritated bladder, diarrhoea and other bowel troubles all may be and often are inflamed and involved in a general state of disturbance which is recognized as catarrh. And it is through their mucous membranes that the impurities or hypersecretions of mucus must be eliminated. In such an event it is often nec-essary that these secretions be prepared by some internal medicinal influence or action before they can be effectually gotten rid of. And if not so prepared for elimination they are usually deposited in some vital parts and remain as points of concentration for various forms of chronic inflamma-

Now, the action of S. S. S. is to so prepare the various blood impurities for elimination that they are readily seized upon by the mucous membranes for expulsion. And if S. S. S. were more generally used as a membraneous catalytic there would be no ca-
